

# 03 Staying up to date

Please edit system and help pages  
ONLY in the master wiki!

For more information, please see  
MoinMoin:MoinDev/Translation.

page was renamed from  
WikiCourse/03 Stay up to date

```
##master-page: ##master-date: #acl -All:write Default #format wiki #language en #pragma  
section-numbers off <<Navigation(slides)>> = Staying up to date = In a wiki, lots of things can  
change in a short time, since anyone can edit, add, or remove pages at any time.
```

For this reason you can easily follow these changes on the page `RecentChanges`.

Listed for every change is:

- a link to a page showing differences.
- a link to the changed page (as well as the information for this page).
- when the change was made.
- who made the change.
- a comment made for the change.

(!) If you are logged in to the wiki, you can set a temporal "bookmark" using this page. In that case, the wiki will remember which changes you have already seen and will only display the new ones after that.
