

05 User preferences

Please edit system and help pages
ONLY in the master wiki!

For more information, please see
MoinMoin:MoinDev/Translation.

##master-page: ##master-date: #acl -All:write Default #format wiki #language en #pragma
section-numbers off <<Navigation(slides)>> = User preferences =

After account creation and login, you can change your user preferences and <<Action(userprefs,
settings)>> (click on the link <<GetText(Settings)>> at the top of the page).

The default values should be fine for most of the preferences, but you might want to change:

- the time zone (to convert the UTC time to your current time).
- the size of the editor input box (depends on your screen resolution and font preferences).
- maybe the preferred language (not necessary with a correctly configured browser).

Then click on the "'<<GetText(Save)>>'" button at the bottom of the page.

Version #1
