

100 Creating the slides

Please edit system and help pages
ONLY in the master wiki!

For more information, please see
MoinMoin:MoinDev/Translation.

```
##master-page:Unknown-Page ##master-date:Unknown-Date #acl -All:write Default #format wiki  
#language en #pragma section-numbers off = Creating the slides =
```

Put a headline on top of your page (as you see above) because in `<<GetText(DiaShow)>>` mode, the wiki page title won't be visible (as the whole wiki frame stuff won't be visible, only the page contents).

If you do not want to enumerate your headlines, use `#pragma section-numbers off` at top of your page.

(!) Don't forget to fill in some valuable content.

For your convenience, there is a SlideTemplate - use it.

Put `<<Navigation(slides)>>` (upper) or `<<Navigation(siblings)>>` (lower) at bottom of your page:

```
<<Navigation(slides)>>
```

```
<<Navigation(siblings)>>
```
