

# 12 Headlines

Please edit system and help pages  
ONLY in the master wiki!

For more information, please see  
[MoinMoin:MoinDev/Translation](#).

```
##master-page: ##master-date: #acl -All:write Default #format wiki #language en #pragma  
section-numbers off <<Navigation(slides)>> = Headlines =
```

```
== Input == {{{ = First headline level with ==-character = == Second == === Third === ... (up  
to "Fifth") }}}}
```

```
== Display == {{{#!wiki = First headline level with =-character = == Second == === Third  
=== ... (up to "Fifth") }}}}
```

(!) If a headline isn't displayed correctly, it is usually because:

- there are invisible (whitespace) spaces after the concluding =-character (they can be deleted manually or with "<<GetText(Remove trailing whitespace from each line)>>" edit option).
- the number of =-characters at the front and at the back doesn't match.
