append files to a wiki page.

== Input == {{{ [[attachment:letter.txt]]

{{{attachment:foto.jpg}} }}

== Display ==

[[attachment:letter.txt]]

{{{attachment:foto.jpg}}}

(!) As long as the files aren't uploaded:

- the links are grey (like links to non-existent wiki pages).
- an alternate image, like a paper clip, is displayed for non-existent embedded pictures.

You can click on it and upload the file from your computer's file system to the wiki using your browser. Then the design is regular and:

- links are blue.
- the image appears.
