`RandomQuote` macro selects random quotes from list items on this page. See also HelpOnMacros.

Here are few hints for new users, or users that don't like to read the manual:

FortuneCookies on this page is a self-linked link. It's not a link when it is quoted.

To solve this problem, change the format to `[::XXXX:XXXX]`.

- Hint: Edit the `[[FortuneCookies]]` page to display randomly selected wisdom here.

- Hint: Set your pages language with {{{#language en}}} processing instruction. See also HelpOnLanguages.
- Hint: Add your favorite pages to your navbar. See your Quicklinks list in your user preferences.
- Hint: Search for multiple words, just like Google. See also HelpOnSearching.
- Hint: Get email notification when this page changes, by clicking ""<<GetText(Subscribe)>>"".
- Hint: View the edit history on the RecentChanges page by clicking the <<Icon(moin-info.png)>> icon (for information).
